הגיע הזמן שתתקדם

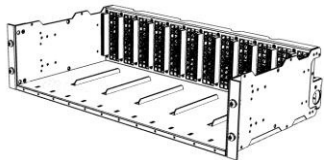

APS3-8xx

APS6-8xx

APS9-8xx

RM12-8xx

- Despite increased power the HDR48-ES has the same form factor as existing 3G & ES rectifiers (1U or 3U).
- Due to higher output power, upgraded sub-racks & power systems are needed to fully utilize available power .
- APS3,6,9 (series 8) power systems including load and battery distribution
- Rectifier magazines, 12-way (wide format)
- DV2, Maxi and Midi systems
- The HDR48-ES is fully compatible with the SC300 & SC200 controller and IOB boards
